

Limited Lifetime Warranty

Larson Packaging Company (LPC), warrants that our custom manufactured cases are free of defects in workmanship and materials under normal use and conditions. This warranty extends for the lifetime of the warranted product to the original purchaser. All implied warranties are overridden and disclaimed. Our sole obligation is to repair or replace defective products. The warranty does not cover incidental and consequential damages such as damage to the contents of the warranted product. Damage arising out of normal wear and tear, misuse, abuse, negligence, accident, tampering, alteration or otherwise, is not covered by warranty and is the sole responsibility of the purchaser. Any damage caused by freight or delivery providers should be reported first to them. Foam inserts and lining, although durable, do wear out over time and such wear is not a defect. Therefore, replacement of damaged foam due to degradation is not covered by warranty. In the case of customer or third-party provided foam packs, the performance of the foam pack is the sole responsibility of the user. LPC can repair or replace any damaged panels, hardware, or foam on any LPC fabricated cases. The purchaser is responsible for the cost of shipping the defective case to our Milpitas CA facility, and LPC will return the favor and ship your repaired case back to you free of charge. Please [contact us](#) with any questions regarding your limited warranty.
